Projects

Traffic Accident Analysis

Mar 2026 - May 2026

- Created a machine learning project to analyze traffic accident data and identify accident patterns
- Performed data preprocessing, visualization, and exploratory data analysis using **Pandas, NumPy, and Matplotlib**
- Trained predictive models using **Scikit-learn** to evaluate factors affecting road accidents
- Generated insights through charts and statistical analysis to support data-driven decision-making

Repository Link: https://github.com/Ankitraj2000/Traffic_accident_analysis

Expense Tracker

Dec 2025 - Feb 2026

- Designed a full-stack Expense Tracker application using **Spring Boot, React, SQL, and JWT Authentication**
- Implemented secure user registration, login, and role-based authentication using **Spring Security and JWT**
- Included functionality to **add, update, delete, and categorize income and expenses**, along with dashboard analytics and monthly reports
- Built RESTful APIs, integrated PostgreSQL for persistent data storage, and deployed the frontend on **Vercel**

Repository Link: <https://github.com/Ankitraj2000/expense-tracker>

ATM Management System

Jan 2024 - Mar 2024

- Developed an **ATM Simulator System** using **Java**, integrated with **MySQL database** through **JDBC connectivity** to simulate real-world banking operations
- Enabled secure user authentication, balance inquiry, cash withdrawal, deposit, and transaction history management with dynamic data storage and retrieval from the database
- Applied object-oriented programming concepts along with database management and JDBC integration to build a fully functional and interactive banking simulation system

Certificates

- Java Programming** Jun 2026
Neocolab
- C++ Programming** Nov 2025
Udemy
- C Programming** Oct 2023
Great Learning

Co-Curricular Activities

- BrainBytes – Coding Competition (2nd Prize)** Apr 2026
Boom Script Club, LPU School of Computer Applications
- HackManthan 2025 – 24-Hour Hackathon** Nov 2025
EventEye, Lovely Professional University

Technical Skills

- Languages:** C, C++, Java, Python, PHP, HTML, JavaScript, CSS, SQL
- Technologies/Frameworks:** Git, GitHub, Linux, MySQL, NumPy, Pandas, Matplotlib, Scikit-learn
- Domain Skills:** Object-Oriented Programming, Database Management Systems, Data Structures and Algorithms

Education

- Lovely Professional University** 2025 - 2027
Master of Computer Applications - CGPA: 8.23
Phagwara, Punjab
- M.M.H.A.P.U. University** 2021 - 2024
Bachelor of Computer Applications - Percentage: 78%
Patna, Bihar
- Dr. R.M.L.S. College** 2017 - 2019
Intermediate - Percentage: 75%
Muzaffarpur, Bihar
- Indraprastha International School** 2016 - 2017
Matriculation - CGPA: 7.04
Muzaffarpur, Bihar
